### **Modeling from reality IEEE Xplore Document**

Modeling from reality Abstract: This paper presents an overview of our efforts in modeling-from-reality to create virtual reality models through observation of real objects. These efforts span three aspects: how to create geometric models of virtual objects; how to create photometric models of virtual objects; and how to integrate such virtual objects with real scenes.

### **Modeling from Reality SpringerLink**

This book summarizes the results of our modeling-from-reality (MFR) project which took place over the last decade or so. The goal of this project is to develop techniques for modeling real objects and/or environments into geometric and photometric models through computer vision techniques.
