The Fourth Revolution by John Micklethwait Adrian

The Fourth Revolution crystallizes the scope of the crisis and points forward to our future. The authors enjoy extraordinary access to influential figures and forces the world over, and the book is a global tour of the innovators in how power is to be wielded. The age of big government is over; the age of smart government has begun. Many of the ideas the authors discuss seem outlandish now, but the center of gravity is moving quickly.
